Width = 4.5 cm (1.8")

Description

A very rare solid sterling silver moustache spoon. It is hallmarked for Sheffield 1901 with the makers mark being that of John Round & Son Ltd. It has been superbly designed and is in super condition having no dings splits distortions or repairs. It would have been used by a gentleman with a fancy moustache preventing him from getting food stuck in it, the shame would have been unbearable, the perpetrator, almost certainly ostracized, would then have to witness the downfall of his estate and decline of his social standing eventually leading to destitution and the workhouse? You do find these in silver plate but seldom in solid sterling silver. It measures approx. 8.25 inches (20.5cms) long by 1.75 inches (4.5cms) wide and weighs 74 grams. A very well made unusual piece.
