

SA894273

1930s Swiss Thommen pocket watch and chain

Price

Sold**Item Reference: SA894273****Date of manufacture: 1930**

Description

1930s Swiss pocket watch by Thommen and chain. The watch has a good quality stem-winding movement, with screw set jewels and snail cam micro regulator, which is working nicely. The movement has been identified as by Gédéon Thommen (Revue Thommen). The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Star model by the Birmingham based watch case maker, Aaron Dennison. Overall, the case is in good condition, just some slight unevenness to the screw-on case back. The acrylic lens has very light marking. The dial is signed J W Benson, London. It is in very nice condition with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single gold filled chain, 30cm long including the T-bar and the clasp. The watch comes in a new presentation box.
