Description

These are a very elegant pair of early 20th century English country house desk chair. Made of walnut with a great design and high quality. They are ideal desk chairs or occasional seats. The the ball and claw carved feet they really do have a great stance but for me the best detail is the curve to the arms. Measurements Height 89cm Width 55cm Depth 61cm Depth of seat 38cm Height of seat 44cm (On my website) If you would like these chairs upholstered please click yes in the upholstery drop down menu. These would require 6 metres of material (3m per chair). You can supply your own or please browse our collections under the material section. All my armchairs have been fully restored, springs, legs, padding etc so these will stand the test of time even if used everyday. Price includes UK mainland delivery
