Description

Antique Omega pocket watch, c1932. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is signed with the Omega name and it also carries the serial number 7,591,934 which dates it back to around 1932. The movement is protected by an inner cover which has the name Omega and also images of medals won at trade exhibitions in Bienne and Geneva. The watch measures 49mm diameter excluding the winding stem and the loop. The case is 800 silver and there are Continental hallmarks inside both of the case backs. The inner case back also has the early Omega logo. Originally there would have been a rose gold wash around the bezel, side of the case and to the edge of the case back but much of this has worn off leaving only traces. The case has the odd small "ding" but overall is in good condition for a 1930s piece. The back of the watch has engine turned detail and a vacant cartouche although they have worn down with years of use. The glass lens is in lovely condition. The dial is signed with the Omega name and logo and also the name A B Oscar Burman Umeå Skellefteå Robertsfors. A B Oscar was the original Swedish retailer, founded in 1926,...
