Depth = 29 cm (11.4")

Description

A Fine and unique late Regency, George IV period mahogany waterfall open bookcase, having a wonderful original colour. English Circa 1825. An extremely well constructed, graduated four-tier mahogany open waterfall bookcase, having ring turned supports, each tier having a shallow gallery to three sides, on a rectangular base housing two sunken panelled beaded edge drawers, each having a pair of original brass knobs, with confirming sides, raised on squat turned legs finishing on brass caps and castors. The execution of this piece and quality of timber point to a fine maker of the time, to the likes of Gillows of Lancaster, but as this was most likely a commission made piece a similar drawing can not be found to attribute to. Wonderfully chosen timber throughout with a superb untouched colour and patination. Width: 36 1/4 inches - 92cm Height: 39 3/4 inches - 101cm Depth: 11 1/2 inches - 29cm

Internal Ref: 2809
