Depth = 73 cm (28.7")

Description

For your consideration is this iconically shaped cloud back armchair, dating to the 1930's and made by H&L Epstein. These chairs can come in three types, walnut backed, walnut trim around the edges of as we have here just upholstered. Having tried this chair, we can vouch for it's comfort. It's got it's original brass casters which work well and effortlessly. The body of the chair is in top condition, no re-padding or re-springing required. The material is not original to the chair but looks to have been recovered fairly recently or within the last 5 or so years. There is no stains, balding etc. There is however one tear along the bottom of the chair at the back, this could easily be recovered or depending where you stage the chair could leave as is. The material currently is a plush velvet in a cream colour with contrasting jet black piping. We've priced the chair accordingly to allow for the tear. Offered with free two man mainland UK delivery
