Date of manufacture: Georgian

Dimensions

Height = 42 cm (16.5")

Width = 30 cm (11.8")

Depth = 16 cm (6.3")

Description

A classic mahogany bracket clock from the "age of elegance" Georgian era. Made from beautiful flame mahogany, the arched top case has generous brass inlay and a brass surround inset panel to the lower half. To the sides are brass sound frets with gold backed material. It has brass "lion-head" carrying handles above the sound frets and stands on 4 round brass ball feet. The 8" convex white dial has black Roman numerals and beautifully cut hands. It has a cast brass bezel with convex glass. The 8 day, twin fusee movement strikes the hours on a bell with a lovely crisp, resonating tone. It has just been fully overhauled by our BHI registered staff and carries our usual 12mths full parts and labour guarantee. It has a London style pendulum that is lockable, and a glazed rear door. A clock of exemplary quality as one would expect from the Georgian period. All cards accepted.
