Description

A truly fantastic and rare silk embroidery from the Uzbeki's with everything you could wish for in a great Suzani- outstandingly rich colour, super fine embroidery, outstanding condition and the kind of animated drawing that makes these great embroideries so compelling. The field of flowers seems to almost gently sway in front of your eyes, as if stirred by a breeze and the main border has a serene dynamism of large sky blue pointed flowers with various layers of encircling flowers and vines, the latter of which flows uninterrupted around four sides, perfectly resolved at each corner. This little embroidery is a masterpiece and would be the jewel in the crown of many a collection. Available to you with little fanfare and at a much lower price than you might expect.
