## Description

Circa 1884 a beautifully made and heavy brass doorstop with the original iron weighted base, marked on the bottom Rd T4813 and there are several registered marks and numbers on the inside at the top and we hope to put a photograph of those online soon. It is thought this could have been made by William Tonks & Sons. The doorstop measures 31cm in height, the base is 13cm wide and 7cm deep and the item has been polished but not lacquered. It is in good condition, the handle does lean forwards slightly at the top but this is more obvious in the images. The doorstop weighs 2.9kgs. Postage and packing within the UK mainland only is included in the price and for outside areas or abroad please contact us for a delivery quote.
