

SA899550

High quality French carriage clock

Price

Sold

Item Reference: SA899550

Date of manufacture: Victorian

Description

A very high quality French carriage clock displaying English features to the case. The 8 day duration movement strikes the hours on a gong and features an unusual silvered brass dial with the makers name, R. Stewart of Paris. The minute script delicately painted to the centre and with Roman numerals. The polished brass case is of a substantial quality and has a fluted edge and a large reeded carrying handle. Bevelled edge glasses are found on each side of the clock along with a viewing glass to the top that shows the original lever escapement. A fine example. Fully guaranteed for 3 years and delivery FREE on the mainland UK. Note: R. Stewart of Paris appears to have also had workshops in Glasgow and this clock has almost certainly been made for the English market.
