Description

Antique gun metal Omega pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is signed and it has the serial number 4,886,825 which dates it back to around 1915. The movement is protected by an inner cover which has scratching along the edge where it has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gun metal and it is in good condition. The inside of the case back is signed with the early Omega logo. The glass lens has a few minor marks and a couple of chips underneath the edge. The signed dial is in lovely condition. The watch comes with a single chain, 26cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
