Description

This is a very sweet smaller than average 19th century country pine dresser. The overall condition is typical of these pieces. Well used but looking good for it. The plate rack fits into the back of the base but needs attaching to the wall to keep stable. There are brackets already attached. The design of the base is neat and a little different to any I have seen before. The brass latch keeps the door shut flush and when open it reveals a deep single shelved interior. The back of the dresser is open but we can add a back to it if you prefer for an added cost. Height 211cm Base height 85cm Width 126cm Depth 52cm Price includes UK mainland delivery
