Description

Antique 1903 Waltham pocket watch. The watch has a stem-winding movement, Traveler grade, which is working nicely. The movement is fully signed and the serial number 12,236,255 dates it back to 1903. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding crown and the stem. The case is 14ct gold filled and was made by the Dennison Watch Case Company, supplier of cases to Waltham UK. The case has light marking but overall it is in nice condition for such an early piece. The back of the watch has ornate monogrammed initials. The acrylic lens is in nice condition. The white dial is in lovely condition with original gold hands and a blued steel sub seconds hand. The watch comes in a new presentation box.
