Description

1926 Federal silver half hunter pocket watch. The watch has a Swiss 7-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 51mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside all three covers for Birmingham 1926 with a case maker's mark for Aaron Dennison. Dennisons was a Birmingham based case maker who supplied various watch makers. The case is in good condition, just one small knock to the edge of the case back, nothing too serious at all. The front cover has a small central lens, which has grazing, surrounded by dark blue enamel filled Roman numerals. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition. The signed dial is in lovely condition. It has the special half hunter hour hand so that the time can be read when the front cover is closed. The watch comes in a new presentation box.
