Antique Omega pocket watch and chain

Price

Sold**Item Reference: SA903804****Date of manufacture: 1920**

Description

Antique Omega pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is fully signed and it has the serial number 6,547,646 which dates it back to around 1926. The movement has 15 jewels and has been adjusted in two positions (it is unusual to see this wording on an Omega movement). The movement is protected by an inner hinged cover. The watch measures 48mm diameter excluding the winding stem and the loop. The case is nickel and it is in good condition, just a slight unevenness to the hinged case back. The inside of the case back has the early Omega logo. The glass lens is in lovely condition with just a very small chip to the outer edge, difficult to see with the naked eye. The signed dial is in lovely condition. The watch comes on a single chain, 32cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
