Description

Most decorative Boulle clock. The eight day movement stamped by the renowned maker Vincenti. The clock fully strikes the hours and half hours and is in excellent working order. The most unusual case has inlay to the reverse, which serves two purposes. The clock could be used freestanding on a centre table, or on a mantelpiece where the back would reflect in an overmantel mirror. The majority of Clocks this type have plain black backs. The extra work would cost considerably more giving this clock a rarity and where expense was not a consideration it would have come from one of the finest of homes.
