Depth = 3 cm (1.2")

Description

A quality early cast iron fireback for the traditional home! This is a great item and a practical heat retaining device. The purpose of the fire back is to absorb the heat from an open fire basket and protect the wall behind the fire. This fireback is decorated with a classical scene of cherubs riding a goat! A most unusual item that is seldom available. Please see the other fireback we have listed.

Internal Ref: HF1044
