Description

A quality cast iron arch top fireback for the traditional home! This is a great item and a practical heat retaining device. The purpose of the fire back is to absorb the heat from an open fire basket and protect the wall behind the fire. This fireback is decorated with a central motif of a knight on horseback surrounded by a garland of vines, dragons and a lion mask. A most unusual item that is seldom available. Please see the other fireback we have listed.
