Description

1932 Omega pocket watch. The watch has a 15-jewel stem-winding movement which is working nicely. The movement is signed with the Omega name and the serial number, 7,541,888, dates it back to 1932. The movement is protected by an inner hinged cover which has some scratching where it has been opened in the past. The watch measures 48mm diameter excluding the winding stem and the loop. The case is nickel and overall it is in good condition, just a little unevenness to the hinged case back. The inside of the case back has the early Omega logo. The acrylic lens is in good condition. The signed dial has a hairline running from 10 to 12, and some old damage to the edge of the dial between 7 and 8. The watch comes in a new presentation box.
