Description

Zenith full hunter pocket watch, 1915. The watch has a stem-winding movement which is working nicely. This is a good quality movement with Breguet hairspring for enhanced precision, micro regulator, signed Zenith and with the serial number 1,994,125 dates it back to 1915. It is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in good condition, just slight unevenness to the back and general light surface marking but nothing too serious at all. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which is in good condition, as is the dial which has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
