Description

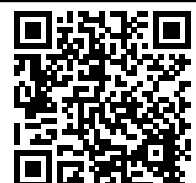

A provincial joined 18th century antique oak chest of drawers. The antique oak chest is of low form and has an arrangement of two short and two long drawers, each with polished wooden knobs. Raised on bracket feet. Attractive colour and patina throughout. Item Ref; M-4119 . DIMENSIONS: Height – 88.5cm / Width – 118.5cm / Depth – 55cm . CONDITION REPORT: In good antique condition throughout with some signs of age. There is surface wear in places including age-related marks, scratches and fading to the top and drawer fronts (pictured), also shrinkage and splits to the top and sides (pictured). There are losses to one of the back feet (pictured). There is evidence of historical woodworm, however this is now long gone and has been fully treated as a precaution. The antique oak chest remains structurally solid and sound, with the drawers running well. Overall, a good example. Our carpenter inspects, repairs, and restores our items, so you can have full confidence that what you buy from us is ready for your home! We ask that you take the time to look at all the photos as they form part of the description and condition report of the item.
