Description

A very pretty antique halo ring we believe to date from around 1910. Twinkling old-cut paste diamonds frame a faceted emerald glass stone, which is a lovely vivid colour and reflects the light beautifully. Marked "9CT & SIL" inside the shank. The ring band is gold while the head is silver. The ring is in very good antique condition; some of the white pastes are brighter than others and appear to have been replaced. Size: Approx K and a half (UK), 5.5 (US). The face of the ring measures around 1 x 0.8cm. Weight: 1.3g. FREE INTERNATIONAL SHIPPING! Apologies but we cannot ship to Germany, any orders from Germany will be cancelled and refunded.
