Description

Here we have a RARE Scottish art glass MONART "mushroom" lamp in good condition with original label still present on the base. These mushroom lamps are rare due to them being made in two parts, if they got knocked over the top invariably broke. This example is a lovely colour with both up and down lighting inside. There is one small (original) flaw in the inner rim of the top section which obviously can't be seen once together. The lamp has been fully re-wired. SIZE; 7 1/2" diameter by 14" high CIRCA; 1930
