Description

This quality Vintage ring features an oval cabochon Star Sapphire between two Rubies, modelled in 9ct Gold. The Rubies compliment the star sapphire perfectly adding an interesting splash of colour. Star sapphires are such an amazing stone and every single one is so different to look at. No two are ever exactly the same which makes them such a valued stone. Star sapphires are only possible to produce when cut into a cabochon to allow the 6 pointed star to be created. The star within the stone is created by several microscopic needles/inclusions found within the structure running at different degrees where light is then passed through to create such a beauty. Star sapphires, just like faceted sapphires, are the hardest out of all the coloured stones with a scale rating of 9 one just behind Diamond. So their durability is perfect for a ring which will be worn everyday. This ring would make a perfect gift or a great addition to any collection.
