Description

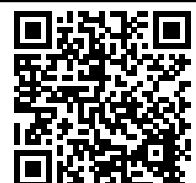

Circa 1900-1920 a pair of well made, very tall brass open twist candlesticks, each weighing 1.8kgs. We will try and improve on the images soon - the bases are round and not as may appear with the one on the right hand side in the main photo! They measure 51.5cm in height, the bases are approximately 17cm in diameter and they have been professionally polished but not lacquered. Both unscrew from the base - see photo 4 - a sign of a good manufacturer. Postage and packing is included in the price for the UK mainland only and for outside areas or abroad please contact us for a delivery quote.
