Description

A 1900s German 400-day disk pendulum clock made in Germany by CB and in mint condition under a thick glass dome, sold to you fully restored & keeping good time. The Case in solid brass in the round case style, she stands 11" high x 4" wide. It is in perfect condition with thick brass plates standing on a brass base. The Dial In good original condition in white, the clock also retains its original black spade hands. The Movement A 400-day time only; the movement has been fully ultrasonically cleaned. given a new spring, then serviced and oiled. It is now keeping good time over the 400 days via the original disk pendulum. It has a thick plate, built like a good quality carriage clock. A key is also included. Overall a very rare, stunning 400-day clock by a quality German maker which looks great on display and retains all of its original features. If you require any more information or photos please ask. I can film the clock running if desired and you are welcome to come and view the clock in person. As with all my clocks, this one is sold with a 'back-to-base' 3-month guarantee. I also offer future clock servicing, which I carry out personally at a heavily discounte...

Internal Ref: 400 day
