Depth = 15 cm (5.9")

Description

A 1930s Fusee dial clock with a 12" dial in a solid mahogany, dovetailed case, with a very thick wooden rim and brass bezel. The Case In solid mahogany and stands 15" in width x 5.5" in depth. It is in beautiful original condition well waxed and polished over the years maintaining a nice colour. The clock has an opening side and bottom door, a complete back box complete and a steel hanging bracket at the top. The Dial In original condition, including its GPO mark, which is 12" across. It's painted white with Roman numerals and is covered by glass in a heavy brass bezel. The Movement An eight-day time-only Fusee, it is a thick plated heavy built movement with sturdy pillars and very fine crutch; a sign of a top-quality old movement. The Fusee is run via the original cord; and she still retains her original pendulum and key. The mechanism has been ultrasonically cleaned and had a new spring added by myself and is now running strongly and keeping good time over the eight days. Overall, a very nice piece which has not been tampered with since new. It will radiate understated elegance on any wall. If you require any further information please just ask. I am happy to sen...
