

SA917375

German tin plate mechanical musical toy - Notre Dame

Price

Sold**Item Reference: SA917375****Date of manufacture: 1920**

Description

A German tinplate model of Notre Dame Cathedral early 20th century. The handle on the side winds up the mechanism to play music. All in working order, mechanism inside lid is in uncleaned condition so complete with dust. The outside lithographic decoration is in fantastic order with very little wear only that commensurate with us. The handle is complete. Leonard Muller in style? H 17 cm L 16 cm W 10cm
