Depth = 52 cm (20.5")

Description

This is a simply stunning c.1900 Library cabinet. It has its original ebonised finish which has gained a great patina over the years. It has fully adjustable shelves in both the central open bookcase and the sections behind the glazed doors. The top section locks work perfectly. The lower section has had its locks changed in its life and now no longer has a key. All are open and can be opened simply by pulling doors. But if you would like use to change these please let me know. The quality is superb as is the condition with only a few minor marks consistent with age and use. The piece splits into 3 for easier transportation. Height 258cm Width 310cm Depth 52cm Price includes UK mainland delivery
