Description

A rare set of Victorian sterling silver and jade cutlery rests. They are hallmarked S SILVER along with the makers mark of Frank Grady. They also have a registration mark - assuming this matches the UK registrations marks it dates their design to 1884. Grady moved to Australia in 1880 before moving to New Zealand where he made and retailed top end pieces. They have an unusual design and are in super condition being free from dings splits chips cracks and repairs - the ends N or Z are slightly out from being perfectly straight. They measure 3.25 inches (8cms) long by 1.5 inches (3.6cms) wide/tall and combined weigh 85g. Super quality very rare examples.
