Gents 1950s Allaine automatic wrist watch

Price

Sold**Item Reference: SA918203****Date of manufacture: 1950**

Description

Gents 1950s Allaine automatic wrist watch. The watch has a Swiss 30 jewel automatic movement which is working nicely. The watch measures 32mm diameter excluding the winding crown and the lugs. The main body of the case is rose gold plated while the screw-on case back is stainless steel. The case is in lovely condition, just light scratching to the back of the watch. The signed case back states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. Signed winding crown. The lens has a couple of marks if viewed through a magnifying loupe, but looks good to the naked eye. The signed dial has a most unusual and interesting textured finish, original hands and seconds sweep, all in very nice original condition. A new leather strap has been fitted. The watch comes in a new presentation box.
