Description

Gents 1950s large Roamer wrist watch. The watch has a Swiss 15-jewel hand-winding movement, signed Roamer, which is working nicely. The watch is a very good wearable size at 36mm diameter excluding the winding crown and the lugs. The main body of the case is chromium plated while the case back is stainless steel. The case is in super condition for a 1950s piece with just general light surface marks, nothing serious at all. The lens is in lovely condition. The signed dial is in its original finish with original hands, a subsidiary seconds dial and date display (not quickset). There is some light freckling across the dial. A new leather strap has been fitted. The watch comes in a new presentation box.
