Description

A superb metamorphic high chair dating from the early 20th century. It is excellent quality with a green leather covered chair and movable tray and foot rest. The high chair folds down into a flatter chair with a much bigger activity tray in front complete with wooden beads and this set up is on four small wheels. It is great fun and very well made, certainly a usable piece as well as a great decorative item. It is strong and sturdy and moves smoothly from one form to another. It is in good condition with no major damages. There are some signs of age and use, some light marks and knocks but nothing detrimental and overall it displays well. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Nationwide delivery available through our network of reliable couriers.
