Depth = 56 cm (22.0")

Description

A good example of a Windsor chair dating from the mid to late 19th century. It has a high hooped back enclosing tapering spindles and a pierced back splat. It stands on turned legs joined by a H-stretcher. It has a lovely shaped elm seat with a wonderful warm colour and grain. The chair stands approximately 42" (107cm) high and is 22" (56cm) deep. The seat is 16" (41cm) deep and 17 1/4" (44cm) high and arm to arm the chair is 22 1/2" (57cm) wide. It is in good original condition and is strong and sturdy with no signs of worm or any major damages. There are signs of age and use and some marks and light scratches on the seat and around the legs but nothing detrimental. The chair has developed a wonderful rich patina with layers of old stain attractively worn in places that have been most touched and handled. It has been gently cleaned and polished and is ready for use. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Nationwide delivery available through our network of reliable couriers. Please get in touch for an accurate quote to your location.
