Sold**Item Reference: SA919899****Date of manufacture: 19th Century**

Description

This lovely antique double fusee mantel clock has a walnut veneered case with a fantastic grain and rich colour. The top of the case has a large finial followed by a ribbed, carved section as well as a carved moulding around the top edge. The body of the case is then square with belled out sections to the bottom of the sides which each have floral carvings to the front. There is then a further moulding separating the body as the base. Finally the clock is finished by four turned wooden feet. The dial is then round and painted. It is set out in black Roman numerals with a thin ring to the outside marking the minutes. The dial is then finished by two shaped hands as well as a protective, bevelled glass set into a brass bezel. The movement is then wound from the front and accessed from the back. It is a double chain fusee example and comes complete with its regulating pendulum and winding key. It ticks away as it should and chimes via a gong! It measures approximately: - 17.5" / 44.5cm Tall. - 10.5" / 26.75cm Wide. - 7.5" / 19cm Deep.
