Description

Gents 1960s Rotary wrist watch. The watch has a 17-jewel Swiss hand-winding movement, signed with the Rotary wings logo, which is working nicely. The watch measures 34mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition with just light surface marks, nothing serious at all. The back of the watch states that the watch is water resistant but, as with any vintage watch, it should be kept away from water and moisture. The lens is in lovely condition. The signed dial has light freckling across it but not too obvious to the naked eye. A new leather strap has been fitted. The watch comes in a new presentation box.
