Description

A lovely pedestal table. We date this table to the late 19th century. The table top sits on a well turned column, the column is supported on a tripod base with a circular shaped table top. The table has a height of 28" (71cm) and a top diameter of 19.5" (49cm). This lovely table remains in a good solid condition with only minor surface markings commensurate with age and usage. There is some minor wear around the feet and some very minor indentations to the surface. There is a very slight dip to the centre of the table. This remains a very stylish and elegant occasional table. It will continue to provide good service for many years to come.
