Huge Citrine (~17CT) and Turquoise 18K Gold Ring Pear Cut

Price

Sold

Item Reference: SA923873

Date of manufacture: 1960

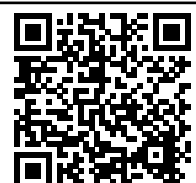

Description

We are delighted to offer this massive citrine and turquoise pear cut ring set in 18K gold. This ring features a very large (estimated 17CT) pear cut citrine gem with 22 turquoise stones clustered around the edge. The central citrine is magnificent and beautifully cut with very good transparency. The yellow tone compliments the gold setting whilst the turquoise contrasts it with hints of blue. The magnificence, size and weight can be fully appreciated in person and undoubtedly stands out from the crowd boldly yet stylishly. Citrine is known to be the birthstone for October. A very special gift to a lucky individual or as an indulging gift to oneself. Perfect for jewellery lovers looking to make a statement and those with an eye for something unique. All of our rings come with a complimentary hard shell gift box with a velvet interior. The ring is unmarked but our acid test indicates 18K gold. Size Total Weight UK Size O US Size 7 1/2 Top Cluster Size: 30mm x 24mm 15.78g /5.07 oz t Condition: Good vintage condition with some minor wear on the facets visible only under magnification. Some slight wear on the gold setting for the citrine, however, no f...
