

SA924241

1930s Swiss pocket watch and chain

Price

Sold**Item Reference: SA924241****Date of manufacture: 1930**

Description

1930s Swiss pocket watch and chain. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover which has light marking where it has been polished zealously in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel. The front and sides are in good condition, the hinged case back has light surface scratches. The watch glass has the odd mark but again, nothing too serious. The dial has an old repair to the centre although not very noticeable. Blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a double albert with each chain measuring 18cm long including the T-bar and the clasp. There are also two antique Indian coins which have been drilled to use as little fobs. The watch and chain come in a new presentation box.
