Description

Gents 9ct gold Vertex wrist watch, 1955. The watch has a Swiss 15-jewel hand winding movement, signed Vertex, which is working nicely. The watch measures 31mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the case back for Birmingham 1955 with a case maker's mark for Aaron Dennison. Dennisons was a Birmingham based case maker and supplier to various watch manufacturers. The case is in good condition, just general light marks but nothing serious at all. There is a long service inscription from W H Smith. The lens is in good condition. The signed dial is in its original finish with original hands, a subsidiary seconds dial and outer minute markers. There is light marking to the dial but again, nothing too detrimental. A new leather strap has been fitted. The watch comes in a new presentation box.
