

SA928696

Antique Goliath pocket watch and chain

Price

Sold**Item Reference: SA928696****Date of manufacture: 1900**

Description

Antique Goliath pocket watch and chain. The watch has a good quality stem-winding movement, probably Swiss, which is working nicely. The movement is protected by an inner hinged cover. The watch measures 66mm diameter excluding the winding stem and the loop. The case is nickel with a thin rim of gilt metal next to the lens. The case is in good condition with just minor surface marking, nothing serious at all. The glass lens has a handsome bevelled edge. There is a 1cm scratch and also a shorter one but you have to look quite carefully to see them. The dial is in lovely condition with original pin-set hands, a subsidiary seconds dial and outer minute markers. The watch comes with an unusual single heavy Goliath watch chain, we have never seen one like this before and it is perfectly proportioned for the watch, although probably a little later in date. The watch and chain come in a new presentation box.
