Date of manufacture: 19th Century

Dimensions

Height = 197 cm (77.6")

Width = 58 cm (22.8")

Depth = 11 cm (4.3")

Description

This is a great piece of agricultural history that now makes a rather stunning wall decoration. This is a flint threshing board that was mainly used to separate cereals from their straw. The flint and rustic wood that make up this piece are hugely attractive and means this could stand very well in a number of interiors. Height 197cm Width 58cm Price includes UK mainland delivery
