Description

A very attractive Art Deco Czech crystal decanter of large proportions. The Czech glassworks is most famous for its pieces made in the period of 1930's when striking and inventive geometric designs became a departure from the classic two toned crystal goblets and decanters with floral carved designs. This decanter boasts a very striking black and white geometric design which screams Art Deco. There is an imperfection to the base of the decanter which appears to be within the glass itself and thus is likely a flaw in manufacture. There are some light signs of wear commensurate with age, no damage. Free UK mainland delivery Weight: 1.29 kg
