Description

Antique 1890s Longines pocket watch. The watch has a stem-winding movement, signed with the Longines logo on the regulator, which is working nicely. The movement is protected by an inner hinged cover. This is a nice chunky watch, it measures 55mm diameter excluding the winding stem and the loop so slightly bigger than a standard 50mm pocket watch. The case is nickel and it is in lovely condition with just light surface marks, nothing serious at all. The lens is in lovely condition. The signed dial is in very nice condition too with original pin-set hands and an outer minute track. The watch comes in a new presentation box.
