Description

Antique Record pocket watch and chain. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is signed with the Record name, and it is all protected by an inner cover which has the word "Boy" lightly scratched into it. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in good condition, just a gentle hint of unevenness to the hinged case back and some rubbing to the back, probably where it has sat in a pocket. The watch glass has a small nibble to the bevelled edge, and a few minor marks, nothing serious at all. The dial is in lovely condition. Blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 29cm long including the T-bar and the clasp. Also included is an enamel and gold plated fob from King Edward VI school which is in Louth, Lincolnshire. The watch and chain come in a new presentation box.
