Gents Vertex Revue bumper automatic wrist watch

Price

Sold**Item Reference: SA933958****Date of manufacture: 1950**

Description

Gents Vertex Revue bumper automatic wrist watch. The watch has a calibre 80SC bumper automatic movement which is working nicely. This movement, with the centre seconds variant, was in production from 1949 until 1958. Early automatic movements such as this one relied on the rotor 'bumping' backwards and forwards between two springs to maintain the power within the movement. Later automatic watches have the fully rotational rotor. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is stainless steel and it is in good condition with just general light surface marks, nothing too serious at all. The later lens is in good condition. The signed dial is in its original finish with original hands, centre seconds hand and outer minute markers. There is some light freckling across the dial. A new leather strap has been fitted. The watch comes in a new presentation box.
