## Description

Gents 1950s Revue wrist watch. The watch has a 17-jewel hand-winding movement, Revue / Thommen calibre 77.1, which is working nicely. The watch is unusually large for a 50s watch at 35mm diameter excluding the winding crown and handsome teardrop lugs. The main body of the case is chrome plated while the case back is stainless steel. The case has general light marking commensurate with its age but nothing too serious. The lens is in good condition. The signed dial is in its original salmon finish with original blued steel hands, a subsidiary seconds dial and outer minute markers. A 'new old stock' strap has been fitted. The watch comes in a new presentation box.
