Description

Ladies 9ct gold Visible wrist watch, 1924. The watch has a 15-jewel hand-winding movement which is working nicely. The watch measures 25mm diameter excluding the winding crown and the lugs. The case is 9 carat gold and there are hallmarks inside the hinged case back for Birmingham 1924. The case is in good condition and it has a hinged front and back. The lens is in good condition. The watch has a pretty dial with blued steel hands, the blue number 12 and outer minute markers picked out in gold. There is a hairline crack running from the centre of the dial towards number 10 but you have to look quite closely to see it. The watch comes on a rolled gold bracelet. The watch comes in a vintage presentation box from the high end London retailer J W Benson. There is old writing to the inside of the lid, probably the details of a previous owner.
