## Description

Just a superb example of the very best Turkoman weaving. Deeply saturated colours, with a particularly lovely cherry red, not to mention loads of green, touches of yellow and a scattering of magenta silk highlights. In perfect condition, no repairs, this crisp little storage bag must have been made by a very skilled weaver and as a result is highly collectable. One of the nicest I have seen for years. 1'5" x 4'0"
