

SA936913

1920s Langendorf half hunter pocket watch

Price

Sold**Item Reference: SA936913****Date of manufacture: 1920**

Description

1920s Langendorf half hunter pocket watch. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement has been identified as a Langendorf piece, and it is all protected by an inner hinged cover which has a little marking but not too detrimental. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in lovely condition with just one short crease indentation to the front. The front cover has a small central lens surrounded by blue enamel filled Roman numerals. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in lovely condition. The dial is in lovely condition and has its original blued steel hands, including the special half hunter hour hand so that the time can be read when the front cover is closed. The watch comes in a new presentation box.
